Python | Panda | Classification | LLM |
Data Analysis | NLP & More

Career Paths as a AI-ML Expert

AI-ML Engineer/Developer:

Work on implementing machine learning models, developing AI algorithms, and deploying them into production environments.

Salary Range:

Fresher: 4 LPA – 10 LPA | 2-5 Years Experience: 11 LPA – 28 LPA

Data Scientist:

Transition into a data scientist role focusing on analyzing data, building predictive models, and extracting insights to drive business decisions.

Salary Range:

Fresher: 5 LPA – 12 LPA | 2-5 Years Experience: 12 LPA – 25 LPA

AI-ML Research Scientist:

Dive deeper into research and development, exploring cutting-edge AI techniques, and contributing to advancements in the field

Salary Range:

Fresher: 6 LPA – 11 LPA | 2-5 Years Experience: 15 LPA – 35 LPA

AI-ML Consultant/Solution Architect:

Consult with businesses to design and implement AI solutions tailored to their specific needs, overseeing the entire AI project lifecycle.

Salary Range:

Fresher: 10 LPA – 18 LPA | 2-5 Years Experience: 16 LPA – 35 LPA

AI-ML Entrepreneur/Startup Founder:

Start your own AI-focused company, developing innovative AI products or offering AI consulting services to clients.

Salary Range:

Fresher: 9 LPA – 14 LPA | 2-5 Years Experience: 15 LPA – 30 LPA

Companies hiring

Why Choose Us?

01

Introducing Qbits
which is a software and edtech company that provides project-based training and opportunity for paid Internship.

02

Qbits Learning:
Transition from project-based learning to earning a software scholarship and intern at Qbits Control.

03

Qbits Control:
A SaaS product company that simplifies tasks, boosts productivity, and modernizes operations using tech.

Product Roadmap

01

Phase 1 Qlearn

- Project Training from Day 0
- Project Completion Certificate
- Internship Completion Certificate

02

Phase 2 Qscholar

- Get Qbits Goodies
- Work with agile team
- Earn rupees 1000/- as stipend.

03

Phase 3 QApprenticeship

- Receive offer letter from Qbits Control
- Work as a Intern in Qbits Control
- Earn stipend ranging from 5k-15k

Learning Path Details

Phase 0: Prerequisites

Key Features

- 15 hours of Recorded classes.
- Start working on projects from day 0.
- Access to best-in-class LMS platform.
- 1-on-1 doubt clearing.

Module 1: Python Fundamentals

Module 2: Functional Programming

Module 3: Object-Oriented Programming (OOP)

Module 4: File Handling Skills

Phase 1: QLearn (3 Months)

Key Features

- 45 hours of live Project Training
- Work on 3 projects
- 12 Assessments
- 6 Assignments
- 1year LMS Access
- Work with top industrial Expert (Microsoft, Deloitte, IBM, etc)
- 24*7 mentor Assistance
- Host your Projects on our Website
- Projects Completion Certificate
- Internship Completion Certificate

Month 1:

Project Title:

“Building a CLI-ERP: Command-Line Enterprise Resource Planning System using AI-ML Tools”

Project Objectives and Outcomes:

- Integrating AI-ML Tools into CLI ERP Panel.
- Leveraging NumPy, Pandas, SQL, Plotly, and Matplotlib.
- Enable advanced analytics capabilities and visualization.

Module 1:

Data Pre-processing with NumPy

Module 2:

Data Analysis with Pandas

Module 3:

Data Visualization with Matplotlib/Seaborn

Module 4:

Interactive Visualization with Plotly

Module 5:

Data Integration with SQL

Month 2:

Project Title:

"TextMiner: Text Classification and Market Basket Analysis"

Project Objectives and Outcomes:

- Implementing Text Classification Algorithms.
- Conducting Market Basket Analysis.
- Streamlined Decision-Making Processes.
- Enhancing Data Interpretation Capabilities.

Module 1:

Introduction to Scikit-Learn

Module 2:

ML Fundamentals Primer:

Module 3:

Regression Mastery with Scikit

Module 4:

Mastering Time Series Analysis

Module 5:

Clustering Proficiency with Scikit

Month 3:

Project Title:

"LinguaBot: Chatbot with Transformers and ' Transliteration with LSTM"

Project Objectives and Outcomes:

- Implement Transformer-based Chatbot System.
- Enhance Natural Language Understanding Abilities.
- Enhanced User Engagement and Interaction.

Module 1:

RecurrentNN Toolkit for NLP

Module 2:

NLTK Integration for Generative AI

Module 3:

Generative AI Module with Flask

Module 4:

Flask API for NLP Applications

Module 5:

Recurrent Neural Networks for NLP

Phase 2:-Qscholar (1 Month)

Key Features

- Work in an Agile Team
- Get Qbits Welcome Kit
- Work on Live Projects
- Pitch your Projects Idea
- Collaborate in Agile Team
- Project Manager Guidance
- Earn 1K Stipend
- Get Internship opportunity From Qbits Control

Phase 3:-Q-Apprentice (2 Months)

Key Features

- Work as Intern in Qbits Control.
- Earn up to 15k Stipend
- Opportunity to get PPO From Qbits

Instructors Details:

Satya Pattnaik

Data and Applied Scientist

8+ Yrs of Industry Experience

Skills: Deep Learning, Natural Language

Processing, GPTs, Statistical Inferencing,

Explainable Machine Learning(XAi),

Time Series Forecasting
